***For treatment with medication, individuals must see their family doctor or psychiatrist.**

Please note that this list is not comprehensive and includes only the contact information for professionals with whom AAGE is familiar. The health professionals listed are identified as those who can diagnose and/or treat individuals with ADHD. **We do not endorse or recommend any method, treatment or program provided by these professionals.** We encourage you to research any and all treatments, products, and programs before you purchase them. Please check with each office directly for confirmation of any information above.

You may also consider checking the Online Referral Search at the [Psychologists' Association of Alberta website](#) to look for a professional who works with children or adults. Discuss directly with any psychologist the service you are seeking and whether s/he has the experience and expertise to help you.
